FROM : Chief, Machine Division, OCR

SUBJECT: PRINT Box Requirement

1. In our memorandum of 25 May 1956, we indicated that the sample PRINT box, No. 37846 provided by the SUPPLIER, would meet the needs of the CUSTOMER.

2. In the meantime, I have learned that [] has written a letter to me, which I have not received, asking if the inside depth (thickness) of the box could not be reduced. The box manufacturer requires our exact specifications in order that he may cut the necessary dies.

3. Request you advise [] that we are agreeable to reducing the inside depth of the sample box from 2" to 1½".

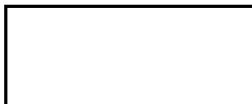

George:

On 12 June 1956 [] in meeting held here formally reduced inside depth to 1½"
